TROPICAL CYCLONE BULLETIN NR. 5
Super Typhoon INDAY (BAVI)

Issued at 11:00 PM, 08 July 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

"INDAY" SLIGHTLY WEAKENS AS IT MOVES WEST NORTHWESTWARD OVER THE PHILIPPINE SEA.

Location of Center (10:00 PM)

The center of the eye of Super Typhoon INDAY was estimated based on all available data at **1,035 km East of Northern Luzon (17.5°N, 131.5°E).**

Intensity

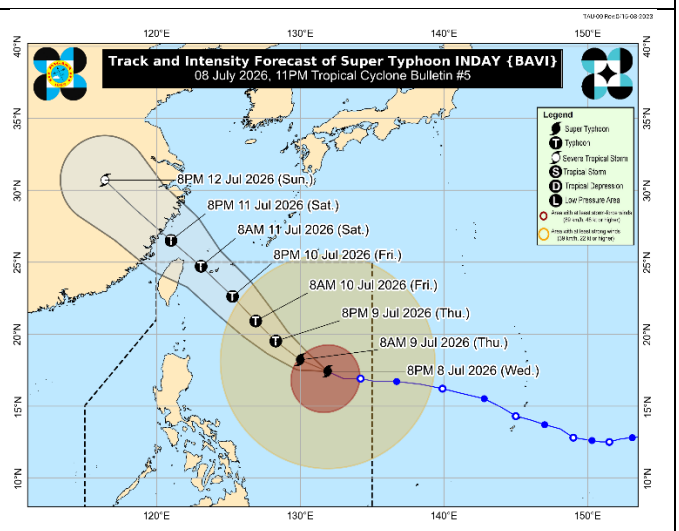
Maximum sustained winds of **185 km/h** near the center, gustiness of up to **230 km/h**, and central pressure of **930 hPa.**

Present Movement

West northwestward at 20 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **880 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 AM 09 July 2026	18.2	130.0	885 km East of Northern Luzon	185	STY	WNW 20
24-Hour Forecast 8:00 PM 09 July 2026	19.5	128.3	720 km East of Calayan, Cagayan	175	TY	NW 20
36-Hour Forecast 8:00 AM 10 July 2026	20.9	126.9	525 km East of Itbayat, Batanes	175	TY	NW 20
48-Hour Forecast 8:00 PM 10 July 2026	22.6	125.3	410 km East Northeast of Itbayat, Batanes	165	TY	NW 20
60-Hour Forecast 8:00 AM 11 July 2026	24.7	123.1	560 km Northeast of Itbayat, Batanes	155	TY	NW 25
72-Hour Forecast 8:00 PM 11 July 2026	26.5	121.0	640 km North of Itbayat, Batanes (OUTSIDE PAR)	150	TY	NW 25
96-Hour Forecast 8:00 PM 12 July 2026	30.7	116.4	1,230 km North Northwest of Extreme Northern Luzon or in the vicinity of Anhui, China (OUTSIDE PAR)	95	STS	NW 25

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	**Luzon**	**Visayas**	**Mindanao**
1 Wind threat: **Strong winds**	**Batanes, Cagayan including Babuyan Islands, Isabela, the northeastern portion of Quirino** (Maddela), **Apayao, the northern portion of Abra** (Tineg, Lagayan, Danglas, San Juan, Lagangilang, Licuan-Baay, Malibcong, Lacub, Daguioman, Dolores, La Paz), **Kalinga, the eastern portion of Mountain Province** (Natonin, Paracelis), **the eastern portion of Ifugao** (Aguinaldo, Alfonso Lista), **Ilocos Norte, the northern portion of Aurora** (Dilasag, Casiguran), and **the northern and central portions of Catanduanes** (Pandan, Caramoran, Bagamanoc, Panganiban, Viga, Gigmoto, Baras, San Miguel)	-	-
	Warning lead time: **36 hours** Range of wind speeds: **39 to 61 km/h (Beaufort 6 to 7)** Potential impacts of winds: **Minimal to minor threat to life and property**		

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 10 issued at 11:00 PM today** for the heavy rainfall outlook due to TC INDAY and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The highest Wind Signal that may be hoisted throughout INDAY's passage is Wind Signal No. 2 or 3.

The enhanced Southwest Monsoon and the periphery of Super Typhoon INDAY will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Pangasinan, Zambales, Bataan, CALABARZON, most of MIMAROPA, Bicol Region, most of Visayas, and most of Mindanao.
- **Tomorrow (09 July):** Most of the country.
- **Friday (10 July):** Most of the country.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the northern and eastern seaboards of Luzon, and the eastern seaboard of Visayas. For more details, refer to Gale Warning No. 2 issued at 5:00 PM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 6.0 m**: The seaboards of Batanes; the northern and eastern seaboards of Babuyan Islands; the northeastern seaboard of mainland Cagayan.
- **Up to 5.0 m**: The remaining seaboards of mainland Cagayan and Babuyan Islands**;** the seaboard of Isabela.
- **Up to 4.5 m**: The seaboards of Aurora and Camarines Norte**;** the northern seaboard of Camarines Sur; the northern and eastern seaboards of Polillo Islands and Catanduanes; the eastern seaboard of Northern Samar; the northeastern seaboard of Eastern Samar.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The northern seaboards of mainland Quezon and Northern Samar; the eastern seaboards of Albay, Sorsogon, Dinagat Islands, and Davao Oriental; the remaining eastern seaboard of Eastern Samar.
- **Up to 3.5 m:** The northern and eastern seaboards of Bucas Grande-Siargao Islands; the eastern seaboard of Surigao del Sur; the southern seaboard of Davao Oriental.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The northern seaboard of Ilocos Norte; the northwestern seaboard of mainland Masbate; the seaboards of Kalayaan Islands, Southern Leyte, Surigao del Norte, Agusan del Norte, and Camiguin; the southeastern seaboard of Leyte and Davao Occidental; the southern seaboard of Bohol and Samar; the remaining seaboards of Bucas-Grande Islands, Eastern Samar, and Dinagat Islands.
- **Up to 2.0 m:** The seaboard of Zambales; the western seaboards of Bataan and Occidental Mindoro including Lubang Island; the southern seaboard of Panay Island; the northern seaboards of Zamboanga del Norte and Misamis Occidental**;** the remaining seaboards of Quezon, Albay, Sorsogon, Masbate, Romblon, and mainland Palawan; the seaboards of Cagayancillo Islands and Cuyo Islands.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions**.

Other coastal waters have forecast wave heights of less than 2.0 m.

TROPICAL CYCLONE BULLETIN NR. 5
Super Typhoon INDAY (BAVI)
Issued at 11:00 PM, 08 July 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- INDAY is forecast to move generally west northwestward over the next 12 hours. It will then turn northwestward while remaining over the Philippine Sea and may be nearest to Extreme Northern Luzon by Friday (10 July) evening or Saturday (11 July) morning before heading towards the southern islands of Japan and the sea north of Taiwan. INDAY is forecast to exit the PAR by Saturday (11 July) and make landfall over the eastern coast of mainland China by Sunday (12 July).
- INDAY will maintain its strength as a super typhoon until tomorrow (09 July). It is forecast to weaken into a typhoon by tomorrow evening or Friday morning until it exits the PAR. Due to an increasingly unfavorable environment, an earlier weakening into a typhoon is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
